OIL FURNACES

THE RIGHT CHOICE,  
WHEN COMFORT CAN'T WAIT.

**A DUCANE™ OIL FURNACE  
KEEPS YOU WARM, RIGHT  
FROM THE START.**

When your older oil furnace quits, you need a solid replacement that's ready to go to work for you right away. A Ducane L83 oil furnace is the right choice. Built and lab-tested for exceptional toughness, Ducane L83 furnaces deliver reliable warmth all winter long, year after year.

## SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider Ducane systems, quality and value are givens. You're getting peace of mind with great features and smart designs that squeeze more efficiency out of every energy dollar. And best of all, you get it right now.

### Quality that saves you money.

Every L83 oil furnace uses a Beckett™ burner, the standard for reliable and efficient heating. So you can stay warm, while still saving money on fuel costs.

### Over the years, a hardworking Ducane furnace can save you hundreds of dollars on utility bills.

Savings vary depending on use, geography, lifestyle, maintenance, installation and other factors. Chart depicts 5-year savings over less-efficient models.

### Fully equipped for outstanding performance.

A Ducane L83 is a choice you can feel good about now and season after season. That's because every L83 is equipped with a heavy-duty heat exchanger and motor that's dynamically balanced and run-tested for smooth performance. Prepainted cabinets add to the L83's toughness.

## THE DUCANE™ L83 IS A SMART CHOICE NO MATTER HOW YOU LOOK AT IT.

- 83% AFUE\* means an L83 furnace converts 83% of its fuel into usable heat, so you'll be using less oil every month
- 10-year limited warranty on parts and a limited lifetime warranty on the heat exchanger (with registration)\*\* mean you'll feel good for years to come
- Dynamically balanced motor helps reduce sound, making for a quiet startup and shutdown
- Steel heat exchanger with ceramic-fiber combustion chamber keeps your home comfortably heated
- Fiberglass cabinet insulation boosts energy efficiency and helps further reduce operating sound
- Every L83 is factory run-tested to help deliver the highest possible level of reliability

*\*Like the miles-per-gallon rating on your automobile, the higher the AFUE rating, the lower your fuel costs. All furnaces manufactured today must meet minimum AFUE requirements. If your furnace is 10–15 years old, it probably falls below the current minimum and wastes energy.*

*\*\*Applies to residential applications only. For terms, conditions and exclusions, see full warranty at [alliedair.com](http://alliedair.com).*

## MAKE THE DUCANE DECISION YOU WON'T REGRET.

When you think about everything Ducane delivers, your decision is no decision at all. The performance and reliability you want are right here, and ready to go to work.

**Ducane. It's the right choice. Right now.**
