

Ducommun™

AIR CONDITIONING
AND HEATING

Carefree and
reliable comfort.

Gas Furnaces

High-efficiency with
advanced comfort features:

- 2-Stage heating control
- Variable speed air delivery

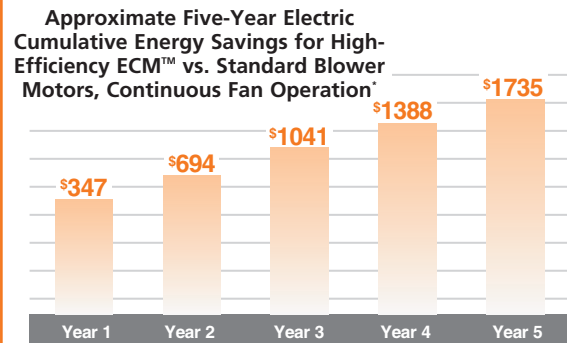

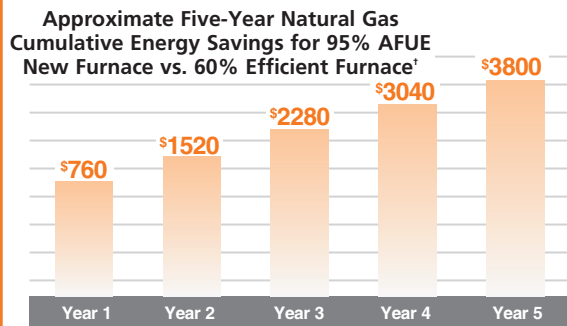

95% afue

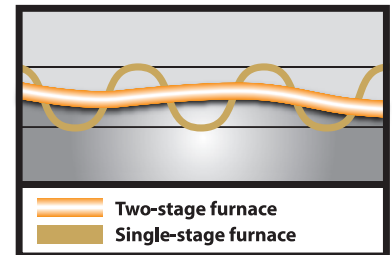

Homeowner Features

- **95% AFUE efficiency rating** for lower operating costs[†]
- **Each unit is backed with a 10-year limited warranty on parts and lifetime limited warranty on the heat exchanger^{††}** (with product registration) for greater peace of mind
- **ECM™ variable speed blower** provides quiet, even temperatures for greater comfort, efficiency and humidity control^{*}
- **2-Stage gas valve** works to match home heating requirements to deliver greater comfort
- **Robust heat exchanger design** featuring aluminized steel for long life and safe operation
- **Qualifies for U.S. Federal Tax Credits***
- **ENERGY STAR® qualified**

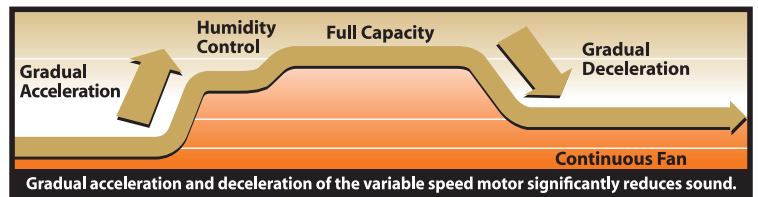

Temperature Control Comparison

A two-stage furnace can operate at high or low output capacity to accurately and efficiently control home comfort in relation to outside temperature and home heating needs.

Variable Blower Speed Operation – in Cooling

Slow, gradual blower acceleration helps pre-heat the air stream during the heating season and pre-cool during the cooling season, improving overall comfort. The blower-off cycle slowly decelerates, improving energy efficiency year round.

[†] Cumulative gas usage savings based on 2008 National Residential Retail Average Natural Gas price of \$1.35 per thousand cubic feet, per US Department of Energy. Based on 100,000 btuh inputs and assuming 60% AFUE for existing unit. Actual costs may vary on systems settings, equipment installation and maintenance, duct system, local climate, local utility rates and hours of operation.

^{*} Cumulative electric usage savings based on 2008 National Residential Retail Average Electric price of \$0.12 per kilowatt hour, per US Department of Energy. Based on comparing standard, single speed blower motor with variable speed, high efficiency motor on continuous (24 hour) fan operation.

^{††} Warranty provides for a total of 10 years of limited warranty coverage (Standard 5-year limited parts warranty plus an additional 5-year limited extended parts warranty). Warranty must be registered online within 60 days of installation to qualify for 10-year coverage. Unregistered equipment defaults to 5-year coverage. Lifetime limited heat exchanger warranty applies to registered equipment only (Standard 20 years with no online registration). See full warranty at www.alliedair.com for terms, conditions and exclusions.

^{*} Please consult a qualified Tax Professional for eligibility.
